Has worked in acoustical design of transit stations, traffic and transit related noise and vibration problems and environmental assessment including mitigation of transport and transit noise and vibration both in India & abroad. Also a great Vidwan of Mrithangam and he had played mrithangam, almost for all famous musician of India whenever they were at USA.*
8.30 p.m.	**Interactive session with Artists**

Flute Maestro K. Bhaskaran, is an experienced IT professional, and an IIT alumnus. He is unique for his projects - in combining computers and music, plus music and mind. He has been performing flute concerts for over 30 years and has been featured in many shows, both in India and abroad besides the radio, TV and CDs. He has received several awards in music and is also known as a thought-leader for his pioneering projects in computer music, e-learning, and 'music and mind'.

Vocal Vidwan Mohan Santhanam has been working in IT & ITES companies for the last 2 decades, besides being an accomplished concert, radio and TV vocalist. He is from a lineage of musical stalwarts and has won several awards, and recognitions including the Kanchi Mutt's Asthana Vidwan title. He has also released several albums of his music and has performed extensively across all festivals and cultural forums in India, besides a few cultural forums in the USA.
