CEO, Valiant Technologies Group

Rev. Dr. M. Albert William S.J.,

Dean of Computer Science, Secretary & Correspondent, Loyola College.

will felicitate

on Friday, 29th Nov 2013 at 5.00 p.m.

at Lawrence Sundaram Auditorium, Loyola College, Nungambakkam, Chennai

Mr. P. Kumar
Chairman
CSI Chennai

Mr. H.R. Mohan
Chairman
IEEE CS Madras

Programme: 5.00: Tea & Fellowship :: 5.30: Presentation

About the Presentation: Technology crimes that encompass cybercrimes are here to stay and cannot be wished away. What started off as an intellectual exercise in one-upmanship grew to becoming a tool of vendetta when it was still regarded as being manageable. Today, the abuse of technology has grown to monstrous proportions substantially due to the economics of such crimes. Rewards running to multiple millions of dollars have edged out the geek and techie from the crime scene and brought in organized crime gangs to the forefront of technology crimes. This menace has to be handled through a multi-dimensional response at the policy, practice and awareness levels. This session will present the crime-risk landscape, the challenges in battling technology crimes and the various ways in which each of us can contribute to battling technology crimes.

About the Speakers: **Prof Thilagaraj** is currently the Professor and Head of the Department of Criminology at the University of Madras and Chairman of Center for Cyber Forensics and Information Security at the University which is one of the very few Centers of specialization in the country. He is the past Chairman of Indian Society of Criminology and the recipient of the prestigious Kumarappa-Reckless Award for outstanding contribution to the field of Criminology education and research for over 25 years. He is member of the Presidium of the Asian Society of Criminology and has been invited to speak at the World Criminology Congress and at the prestigious Stockholm Convention on Criminology.

Dr. K. Rama Subramaniam is a MBA, Ph.D., FCA, FISC, CFIP, CISSP, CISA, CISM, CEH, CHFI. He is the CEO, Valiant Technologies Group (Abu Dhabi–Bangalore–Chennai–Colombo–Port Louis). He is an Adjunct Professor, University of Madras and Founder President (currently serving) - ISC2 Chennai Chapter (the only chapter approved for formation in India). He is the Global Chair (former), Education & Awareness Expert Group of GAISP – Generally Accepted Information Security Principles initiative, USA and former Chair of Accreditation and Certification Board, OISSG, UK. Also served as India’s country representative on TC-11 (Security & Privacy) at the International Federation of Information Processing (IFIP)
