About the Programme: YouTube, the largest video sharing site allows billions of people to discover, watch and share videos. YouTube provides a forum for people to connect, inform, and inspire others across the globe and acts as a distribution platform for original content creators and advertisers large and small. YouTube was officially launched / opened to public access in May 2005, though on 23rd Apr 2005, the first-ever video was posted on the site. According to the official site of YouTube, as on 25th Apr 2015, it has more than 1 billion users and everyday people watch hundreds of millions of hours on YouTube and generate billions of views. It may be of interest to note that 300 hours of video are uploaded to YouTube every minute and about 60% of a creator's views come from outside their home country. YouTube is localized in 75 countries and available in 61 languages. YouTube has millions of video clips and deal with a variety of themes like entertainment, education, music, technology, medicine, science, motivation, skill development, cuisine, travel, advertisement to name a few. These clips satisfy the needs of people of different age groups and other demographics.

This programme is being organised to celebrate the 10th anniversary of YouTube by screening some crowd sourced video clips from our members/participants.
