Cordially invite you for a presentation on

State of the art ALM – Overview of KOVAIR Tools

by

Mr. Bipin Shah

Chairman, KOVAIR Software Inc

on Friday, 13th Nov 2015 at 6.15 p.m.

at

CSI Education Directorate, Taramani, Chennai – 600113

(Situated in the opposite lane to Indira Nagar MRTS Railway Station. About 100 meters away from the Dharmambal Women's Polytechnic & Opposite to the Institute of Mathematical Sciences and Institute of Hotel Management)

Mr. K. Bhaskaran
Chairman
CSI Chennai

Mr. H. R. Mohan
Chairman
IEEE CS &PCS Chennai

Programme

5.45 p.m.: Tea & Fellowship :: 6.15 p.m. : Presentation :: 8.00 p.m.: Dinner

About the Concept : Application Lifecycle Management (ALM) is the product lifecycle management (governance, development, and maintenance) of computer programs. It encompasses requirements management, software architecture, computer programming, software testing, software maintenance, change management, continuous integration, project management, and release management. With the development of software engineering as an important area, and with the growth of newer platforms and paradigms of building software products, and solutions, this has become a very challenging area. Use of state-of-the-art ALM tools conceptualized and developed after several hundreds of man-years of experience, over several business cases and scenarios are a must for building and maintaining defect-free software products and projects on time, and with efficient resource management.

About the Presentation: Kovair Integrated ALM provides you a centralized web based integrated platform that helps you in having an end-to-end visibility on the entire application or product development. The stakeholders while remaining in their existing external tools can still collaborate in a real-time manner. This helps organizations to make the development process faster with better quality. This presentation will give an overview of these tools that are offered by KOVAIR.

About the Speaker: Mr. Bipin Shah is the CEO and Chairman of Kovair for the past several years based in the Silicon Valley area of California. Prior to that he spent more than 25 years in the semiconductor industry with Fairchild Semiconductor and Altera Corporation where he was Vice President of Operations and President of Altera Japan. He was involved in startup Venture Capital investments for about 10 years and has served on the boards of several startup companies. Bipin holds a Bachelor's degree in Electrical Engineering from Jadavpur University Kolkata and a Master's degree in Electrical Engineering from the University of Wisconsin, Madison. He is also involved in several non-profit and educational institutions being associated in an advisory capacity with California Polytechnic University, Pomona, and many Indian educational foundations.

To facilitate logistics, please pre-register at <https://goo.gl/7D5YQb>

You are encouraged to participate in a quiz at <http://goo.gl/lm0MGV>

and win **FOUR** prizes of Rs. 250/= each sponsored by Orbit Innovations. **Two** prizes are reserved for the lucky winners who attend the presentation on 13th Nov 2015.

Pl. note that the quiz will be open till 11th Nov 2015 midnight.
