

IEEE Computer Society, Madras Chapter joins COMSOL Multiphysics Pvt. Ltd

in cordially inviting you to a

Free Workshop on "COMSOL Multiphysics 5.2 and Application Builder"

Multiphysics simulation allows engineers to quickly and inexpensively develop products affected by multiple physics. COMSOL Multiphysics is a simulation software platform that enables product development in mechanical, fluid, chemical, and electrical applications. COMSOL Multiphysics, with its revolutionary new Application Builder and COMSOL Server, provides a platform for simulation experts to spread the use of simulation to non-experts. The Application Builder can be used to quickly create easy-to-use custom apps from COMSOL models and share them with colleagues or customers.

The workshop at Chennai is scheduled on 22nd Mar 2016 at Hotel Raj Park Chennai, No. 180, TTK Road, Alwarpet, Chennai 600018

Time: 2.30 p.m. to 5.30 p.m.

The speaker at the workshop will be Mr. Uttam Pal, COMSOL. Mr. Uttam Pal received his Masters from IIT Bombay in 2013 specializing in the field of computational electromagnetics. He then worked for a semiconductor tech startup, working on opto-semiconductor devices such as LED. Later, he worked at Evalueserve as a patent analyst dealing in the field of optics, human machine interface, robotics and image processing. He is Currently working as an Applications Engineer at COMSOL.

The participation in this event is on prior registration. To register pl. visit www.comsol.co.in/c/3i0z

As the seats are limited, pl. register early.

Your participation will be confirmed by COMSOL through an email.

HR Mohan
Chairman, IEEE CS, Madras Chapter
