About the Speaker: Mr. Sankaran Prithviraj currently is an independent technology strategist for enterprises; provides thought leadership; advises CXOs on technology selection to serve as strategic tool for business. He works on areas such as cloud computing, mobile computing, analytics, internet of things and enterprise architecture. In his 30+ years of IT career, he had worked for clients all over the world and established Center Of Excellence and headed R&D labs. He has published several papers in international forums and has also been a regular conference speaker. He had served as member in standing committee of world body for architecture – TOGAF – The Open Group for Architecture Forum. He is an alumnus of IISc, Bangalore and IIT Madras where he had earned his bachelor and master’s degrees in engineering respectively. His education covers four branches of engineering - metallurgy, aeronautics, production technology and computer science.
